1.0 HISTORICAL DOCUMENTATION OF MILL

1.1 HISTORICAL SUMMARY OF ILLINOIS MILL

The Illinois Mill, located about ¼ mile below Dayton along the Carson River above the Rocky Point Mill (Ansari 1989:84) was also known as the Brown & French Co. Mill, the Ford Berry Co. Mill, and the Dayton Mill (Science Applications International Agency, Technology Services Company [SAIA TSC] 1993:87). The estimated cost of its construction was \$30,000 (Browne 1867:352). In 1861, the mill had 15 stamps (Angel 1958:502). In 1865, the steam-powered mill used five cords of wood per day to power the 20 stamps, five pans, daily capacity of 18 to 20 tons. The mill employed 14 men at that time and was processing ore from the Yellow Jacket Mine in Gold Hill (Ansari 1989:84; SAIA TSC 1993:87). In June 1865, Brown, French and Company owned the mill, while A. Kustel served as superintendent (*Gold Hill Daily News* 1865:3). In 1866, the mill was recorded on Hoffmann's map (Figure 1). The mill was also recorded on the survey plat map of Township No. 16 North, Range No. 21 East of the Mount Diablo Meridian (Figure 2). In 1866, a 30 horsepower steam engine used five cords of wood per day at a cost of \$10 per cord to power the mill's 20 400 pound stamps. William Sharon was the agent of the mill at that time (Browne 1868:352-353). The Bank of California, under the authority of William Sharon, owned the mill in 1868 (Ansari 1989:84). From 1869 to 1870, the mill had 20 stamps and six pans (Ansari 1989:84). The 1984 Lyon County Assessor's Map shows the location of the Illinois Millsite (Figure 3).

The following tables contain a partial title history of the Illinois Millsite (SAIA TSC 1993:92,94-95).

2.0 IDENTIFICATION OF MILL SITE LOCATIONS

2.1 INFORMATION REPORT

Appendix A is an information report generated from the NDEP Mill Site Inventory Database. This inventory is used to record survey data and historical research.

2.2 IMACS FORM

The Intermountain Antiquities Computer System (IMACS) Form is utilized by archaeologists as a guide for preliminary identification of a historic sites and features. The IMACS form is not intended to be complete, or to exhaust the subject of historic artifact discovery. The level of analysis may not adequately encompass the nature and complexity of the site. Estimates of numbers of various artifact types may be more appropriate for large sites rather than detailed descriptions which are more appropriate to small sites. The specific artifact classes represented here are the most common found on historic sites and are generally the most diagnostic. Evaluations of any site are dependent on surface features and artifacts, as well as complimentary historical documentation.

The IMACS form is a stand-alone document, attached as Appendix B with applicable attachments.

Survey Summary

Illinois Mill Site

Survey Date:	5/11/2012
Surveyors:	Emily Dale, Eric Seitz, Ashlee Younie
Is Survey Complete:	Yes
Reason if Not Surveyed:	
Historic Basis:	Historical research and pedestrian survey.
Mill Remains Visible Comment:	None.
Distance From Mill To Nearest Residential Dwelling:	201' - 500'
Is Site Accessible:	No
Site Accessibility Description:	Off of Highway 50, behind Terrible's Casino.
Are There Surface Remains:	No
Evidence of Recreational Use:	Yes
Amount of Recreational Use:	Heavy
Use Description:	Site is now a gravel parking lot.
Is Mill Deemed Historic:	No
Other Comments:	No site left.

Internal Site ID: 36

Mill Summary**Illinois Mill Site**

APN:	006-021-006
Street Address:	800 Pike St Par 3 Fr Illinois Milste
City:	Dayton
Zip:	89403
County:	Lyon
Property Type:	Commercial
Elevation (ft):	4357
Township / Range / Section:	T16N R21E S23
UTM Location:	Zone 11N, 276432.8513 E, 4347051.3861 N
Lat / Long Method:	Digitized From Internet Mapping Program
Mill Location Accuracy:	Piedmont Engineering Location
General Location:	Dayton
Number of Stamps:	20
Number Of Pans:	6
Number Of Settlers:	
Year Constructed:	1861
Period Of Operation:	1860's-?
Operation Type:	Unknown
Operation Capacity:	20
Fate Of Mill:	Unknown
Year Removed:	Unknown

Results of Previous Inventories: N/A

Recorded and Unrecorded Sites: N/A

Expectation: Illinois Mill Site

Inventory Date(s): 5/11/2012

Inventory Type: Modified Class III Survey

Findings: No mill resources were encountered during the inventory.

The Illinois site is located in east Dayton off of Highway 50 on the left hand side of the road if you are traveling east.

There is nothing left, either structurally or artifactually, of the Illinois Mill.

2.7 Illinois Mill (AKA DAYTON MILL) [NOT THE SAME AS THE DAYTON MILLS]

The Illinois Mill was also known as the Brown & French Co. Mill, the Ford Berry Co. Mill, and the Dayton Mill. The earliest documentation of its location is contained in an 1863 survey of a land claim for the Brown & French Co. Mill and Millsite (Map 14). This location corresponds to the current Tax Assessor's parcel map (Map 15).

The property was originally owned by M. A. French, T. J. French, William M. Brown, and Charles Beseler (I-1, I-4). M. A. French transferred a partial interest in the property to Henry Davis on November 20, 1863 (I-2). On December 24, 1863, the property was the subject of a survey for a road claim by Frederick Birdsall, Constant Birdsall, and Mrs. Isabel McNeil Leet (I-3).

In the 1865 Annual Report of the Surveyor General, the Illinois Mill was incorrectly described as being erected in 1864, powered by steam, and having 20 stamps, 5 pans and a crushing capacity of 20 tons (A-4;A008364). The June 5, 1865, edition of the Gold Hill News identifies Brown, French & Co. as proprietors. The mill used steam power, had 20 stamps, had 5 pans, and was crushing 18 tons of ore per day from the Yellow Jacket mine (B-4;A008572).

On January 10, 1865, Brown, Beseler, Davis, M. A. French, and T. J. French executed a mortgage on the property in favor of William Sharon for 2.9 acres known as the "Dayton Quartz Mill afterward Ford Berry & Cos. Quartz mill and now known as the Illinois Quartz Mill" (I-5). This mortgage included a statement of a "promise to pay William Sharon or order at the Agency of the Bank of California." The document was recorded at the request of Wells Fargo & Co. An additional mortgage on the property was executed by the same parties to Sharon, containing a "promise to pay William Sharon Agt or order at the Agency of the Bank of California" on October 28, 1865 (I-6).

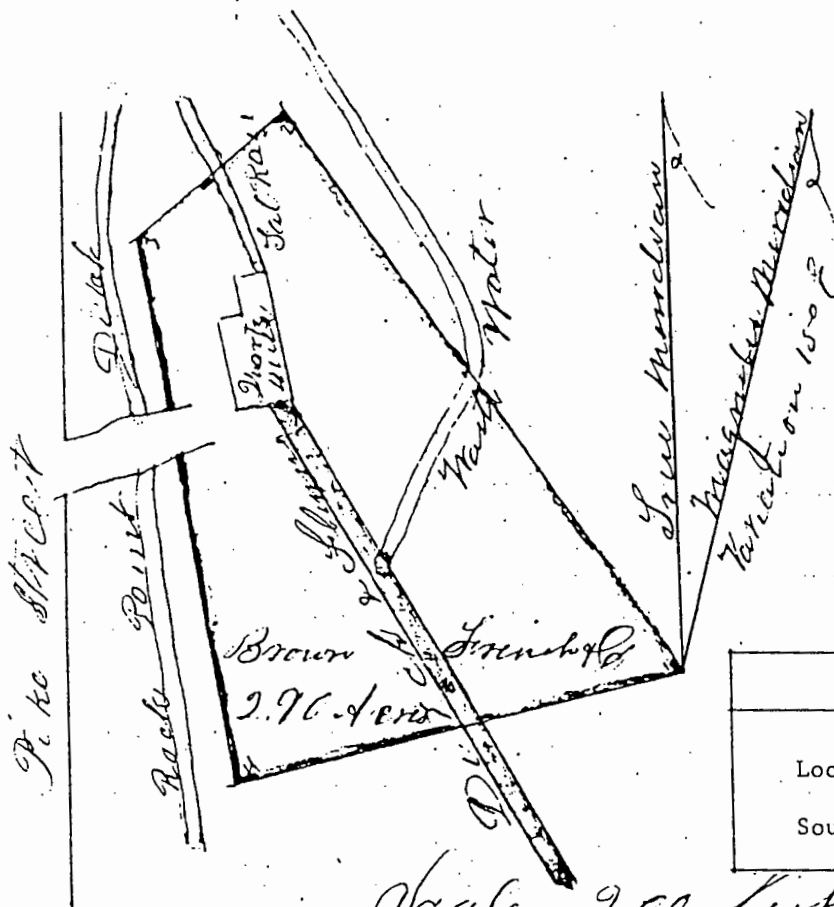

Sharon apparently foreclosed on these mortgages because a Sheriff's deed transferred the property, including 2.9 acres and a mill known as the Ford Berry Co. Mill, aka Dayton Mill, aka Illinois Mill, to Sharon on August 30, 1866 (I-7).

In the 1866 State Mineralogist Report, the Illinois Mill was described as being steam powered, having 20 stamps and 5 pans and having a crushing capacity of 20 tons per day (A-10;A008519).

In the 1869-1870 State Mineralogist Report, the Illinois Mill was reported to have 20 stamps and 6 pans (A-5;A008529).

In the January 21, 1868, edition of the Territorial Enterprise, the Illinois Mill was identified as being owned by the Bank of California (B-7;A008579).

Sharon received the patent to the Illinois Millsite in 1871 (I-9). In a pattern of transactions repeated with several other millsites in this report, F. G. Newlands, as trustee for Sharon's estate, transferred the property to the Union Mill & Mining Co. on November 2, 1905 (I-10). Union Mill & Mining deeded the property to Herman Davis on November 27, 1905 (I-12); and Davis sold the property to the Nevada Mining, Reduction & Power Co. on January 13, 1909 (I-13).

SEPTEMBER 1984 / TC

Dayton
LYON COUNTY

On June 5, 1913, the property was again transferred by Sheriff's deed, this time to R. M. Hotaling (I-14).

Hotaling's interest was, in an undocumented transaction, conveyed to the Hotaling Estate Company, which conveyed it back to Hotaling on July 23, 1925 (I-15). In 1928, Hotaling's heirs, in a sequence of events repeated in the title history of several Millsites, conveyed the property to Charles Oster (I-17). In 1929, Oster deeded it to Minevada Corp. (I-18), of which he was president. Minevada deeded 7.11 acres to the State of Nevada in June 1933 (I-19), and the remainder to William M. Donovan on April 2, 1938 (I-20).

On January 16, 1962, Conrad and Marjorie Strauch, owners of an unrelated parcel of property (see I-33 and I-34), conveyed all their "right, title and interest" in the Illinois Millsite to Victor and Elsie McCurdy (I-36). This transaction appears to be an attempt to convey property which the Strauchs did not own, and also appears to be the origin of a competing claim which was litigated in the 1980's between the heirs of Donovan's interest and individuals who purchased the McCurdy's interest. Documents I-24 through I-28, I-38, and I-39 discuss this litigation. The litigation was settled when Donovan's heirs agreed to execute quitclaim deeds for a portion of the southeast corner and southern edge of the millsite.

The main portion of the millsite, now Parcel No. 06-021-06, is currently owned by William M. Donovan, Jr., Lois R. Naab, Sheila Moser, and Terry Miller, who each have a one-quarter interest (I-22). The southeastern parcel, created as a result of the settled litigation is currently owned by Cletus and Georgette Wandler (I-40). The current assessed owners of the historic millsite parcels are:

oughly overhauled, it will resume operations about the 15th of January.

In Mammoth district, the Mount Vernon Company are continuing their work both upon shaft and tunnel with very satisfactory results, having struck a ledge of rich ore in the shaft of about twenty-five feet in thickness. The owners of the Uncle Sam group have made arrangements with the superintendent of the Knickerbocker mill at Lone to work about one hundred and fifty tons of their rock, which they have commenced getting out. Ferguson & Co. are still at work on the American Flag, the ledge increasing in width and the quartz in richness as they descend. They are down with the shaft about one hundred and fifteen feet, showing a ledge about six feet wide. They intend soon to start a drift, and also to continue the shaft for thirty or forty feet yet. The Superintendent of the Ural Silver Mining Company, C. E. Gillet, has been having rock worked from several of the ledges in this district—the Ural, Gould & Curry, Albany, Kearsarge and Robinson, among the number—all of which "work" at figures that will pay even from the surface with a good mill near by; the figures being from \$60 to \$100 per ton in silver.

From same of January 2d: The new mill of the Combination Company, just completed in the Hot Creek district, commenced crushing ore on the morning of the 27th ult.

Some 650 pounds of bullion were brought into town yesterday from the mill of the Twin River Company.

Washoe.

[In the Stock Circular, in another portion of this paper, will be found late mining news from this district.]

From the *Territorial Enterprise* of Jan. 1st: Thomas Farrell has brought an action to recover mining ground and \$500,000 damages from the Savage Company. The ground claimed is a portion of the front ledge, just east of the Comstock, known as the Mitchell lode, and includes six hundred feet, extending north from the Hale & Norcross north line.

From same of 5th: The damages caused by the flood in Carson river, to the dams, etc., a couple of weeks ago, are now repaired, and all the mills in the vicinity of Dayton are in full operation crushing ore from the old Comstock.

Same of 6th: The new shaft of the Imperial and Empire companies has now attained a depth of 750 feet, and the work of sinking deeper is being actively prosecuted.

At Edwards & Wiegand's assay office, Gold Hill, yesterday, was a pile of twenty-seven silver bars, worth about \$40,000; all from the Crown Point mine. The crude bullion used in the manufacture of these bricks, when brought to the office, weighed three-quarters of a ton.

We present the following report of bullion shipped from the office of Wells, Fargo & Co., in this city, during the past year of 1866, just merely to give some idea of the vast amount of wealth produced from the great Comstock lode. This is independent of what is shipped from their office at Gold Hill or anywhere else:

January.....	\$520,177 20
February.....	442,223 91
March.....	705,210 33
April.....	646,187 50
May.....	648,776 71
June.....	\$62,938 70
	2,575,493 77

operations for want of dumping room for the ore that is being taken out. This is the cause of the deficiency in our shipments. The mines of the Comstock ledge never looked more promising than they do at the present time, nor have they ever yielded more paying ore than now. At the Savage there is in the new dumps at the present time 2,000 tons of first-class ore, which will give a yield of not less than \$80,000 to say the least of it. In fact all the mines where pay ore is being taken out is in the same condition.

From the *Virginia Union* of Jan. 2d: At this time there is fifty tons of first-class ore at the Yellow Jacket new works awaiting shipment. It assays from \$400 to \$500 per ton. The Petaluma mill started up yesterday on the Savage ore.

From same of 4th: We learn that there have recently been a number of rich ledges located beyond and to the east of Death Valley and in the Black Mountains. We were shown some of the ore. Horn silver is plentiful in it, and the entire quartz abounds in sulphurets. The ledges are from eight to thirty feet in width, and crop out prominently, being traceable for a long distance on the mountain side. The region is excellently watered and wooded.

A telegram from Gold Hill, Jan. 8th, says: The Yellow Jacket north mine opened into a new body of ore to-day, 140 feet east of that on the level above. It looks fine.

ARIZONA.

From the *Miner* of Dec. 15th: The ore from the Ticonderoga mine in Goodwin district, near Big Bug, is being worked at Woolsey's mill, yielding from \$50 to \$100 per ton. The lead is about seven feet wide.

Our favored mine the Sterling, now promises wealth and happiness to its lucky owners. No mine in Nevada nor California has ever surpassed it in product or prospects. Since the last clean-up a most thorough and careful examination of the mine has been made by competent and experienced men, with the most satisfactory results. If Uncle Samuel or some other human power will exterminate our infernal redskins, so that men can come here safely, we may look for times well remembered in Nevada in '61-2 and 3. No such prospects were then known in that State, nor do we believe there is a place on the Pacific coast that promises so well for mining as this section of Arizona at this moment.

In the neighborhood of the Sterling are several other mines, known and proved to be very rich and reliable. The Mucella and Umpqua are both being worked, and have exceeded the expectations of their owners.

The *La Paz Gazette* of Dec. 13th, says that Noyes' 10-stamp mill had arrived from Fort Yuma a few days previous.

BRITISH COLUMBIA.

Victoria dates to Jan. 5th: Mr. Jerrold, with a party of eight, arrived last week from Big Bend. There are between fifty and sixty persons wintering on French Creek. The weather was not severe when Mr. Jerrold left, and snow lay to the depth of two feet. Gold Hill claim, on this creek, excites considerable interest, and more confidence is felt in its richness. A mining company has been organized to prospect ground in the rear of this claim. Five men were at work on Discovery claim, making two or three ounces per day rocking their

immediately below Lyon's furnace... The Ophir Company are fixing up their railway and putting on new cars. They are also erecting a new building to cover the lode. They are also about putting in a new engine for hoisting, together with a pump... The Briggs Company commenced this morning on the Gregory. The mill will not be set going at present... Mr. Vissing is operating the Monnier process, in the mill erected by Mr. Fink. He has commenced desulphurizing... The Smith & Parmelee Company have struck very rich pay on the west end of their mine. They are running the 25-stamp mill; the Empire mill, eighteen stamps, and the Fitzpatrick mill of eight stamps... We were handed a fine specimen taken from the Waterloo lode, Idaho district. At a depth of thirty-three feet the crevice is said to be four feet between walls.

The Sonora company have drifted into a crevice in the Agnes lode 100 feet, and have a vein of \$70 ore. They are well supplied with means for a winter's campaign. In Georgetown, Smith & Herrick have nearly completed their furnace. The Washington Company have commenced to erect large smelting works.

From the *Denver News* of Dec. 19th: A specimen from the Summit lode, Georgetown, gave by assay \$2,000 per ton.

Hoyt, Widener & Co. have just struck a solid mass or concentration of quartz veins, some 300 feet in width, on James' Creek. The rock is rich in gold, silver and lead, and is one of the finest smelting ores in Colorado. This lead is to be worked by the Aetna Tunnel Company.

The Sterling mill is crushing Bobtail ore worth from \$150 to \$200 per cord... Hale & Co. are opening the Aetna lead just below. They have run in some 150 feet... The 60-stamp Black Hawk mill is running on Gregory ore. Twenty stamps will soon be added... The Briggs Company are hoisting water, preparatory to resuming operations. The Consolidated Gregory will resume full work as soon as the lower level is drained.

Five mills are now running at Empire, and turning out from two to five thousand dollars per week. Mr. Leeper's mill, with the Keith process, has not yet got down to steady work, but soon will. His works are very complete.

In the neighborhood of Georgetown, some very rich silver discoveries have recently been made, and there is a good deal of excitement about them.

A good deal of gold washing is being done all along Clear Creek, and with satisfactory results. The water has got down low, so that miners can get down into the bars, from which they were barred out all summer.

IDAHO.

From the *Avalanche* of Dec. 22d: In the Woodstock, the prospects are gratifying. Two lots of ore crushed in the Webfoot mill, paid something over expenses. The ledge has been so far opened that a ton of ore is extracted daily. We were shown several pounds of it on Wednesday, and it all shows rich in sulphurets of silver and much free gold. The lowest depth is twenty-seven feet. A tunnel has been started and ore will be taken out all winter. The vein has every appearance of being a true one, and is now two and one-half feet thick.

The Shoenbar mill is to start this morning. All things were in readiness yesterday and the whistle that has been silent for just a year will be heard again. Lots of ore

vian county, and copper, and silver per ton, and silver ton.

The Midas Company has erected a fine one for a large number of this company will be crushed.

There has been created over the around Indian can learn from section, the five miles in 1 Messrs. Coove

such property? It is a nuisance where it stands and should be removed by the most expeditious legal means, and no other." When our city authorities find out what is the matter we hope that the wrong, whatever it is, may be righted "by the most expeditious legal means, and no other." Such is our prayer. Let our authorities do nothing except by the "most expeditious legal means." Let there be no irregular proceedings against said building. The days of the "Vigilantes" are past. Its being advertised "to rent" is of course against the building, yet keep cool and proceed only by the "most expeditious legal means."

FROM LONG PINE.—We were yesterday shown some very fine specimens of ore from Long Pine, Inyo County, California. The majority of the specimens are argentiferous silica, but very rich in silver—so rich as to wholly destroy the regular silica crystallization. Among other curious mineral specimens was a large piece of asbestos, so pure that it could be twisted into strings. This mineral has been tried by the Mexicans as a lining (mixed with clay) for furnaces. But it does not seem to answer the intended purpose as well as bone ashes, which is now generally used.

Upon the heading of "Pretty Sight!" an evening cotemporary says: "What is? Why, a ship under full sail, or (we'll skip the sailor's second), a train of cars in motion, or—next to 'em—the stages of Wells, Fargo & Co.—three six-horse coaches—rolling out of Virginia at 6 o'clock every evening. They prance forth fine. You take notice. We would advise the publisher of the above to ask his head for a month or two. They prance forth fine. Good-bye!"

IN OPERATION.—At present we do not know of an idle mill in the State. All are at work, and there is ore for all. Many of our leading mills are increasing their capacity, and on every side are to be seen signs of the prosperity of our young State. It is not only in mills, but in every branch of trade and industry, that we see improvements throughout the city. Business houses are being enlarged and refitted, and new houses are daily being opened.

THE GOLD HILL FAIR.—The Fair in Gold Hill, given by the ladies of St. Patrick's Church, is proving to be a most successful venture. The hall is crowded nightly, and there can be but little doubt that a sum sufficient to liquidate all the debts standing against the church edifice will be realized. It will continue during the week and will wind up in a grand ball next Monday night. Let our people go down and assist their neighbors of Gold Hill.

BLACK CROOK.—The attendance at the Crook last night was good, and a high old performance was given. All kinds of fun—jokes, dances, juggling, acrobats, and farces. No restriction upon anybody; lager beer drinking and smoking allowed, and all given the liberty of moving about and singing and doing pretty much as they please, so long as they do not interfere with the enjoyment of others. The bill for to-night is an excellent one.

INSURANCE AGAINST ACCIDENTS.—Go to Sprague, Gould & Curry office, and be insured against accidents. In case you are hurt after being insured you get a liberal weekly allowance until you are able to work. This is better than insuring your life, for once you are dead the money of the insurance company will be of mighty little use to you. They can give you no checks that will pay for grub in that "bourn from whence no traveler returns" to curse his bunk.

LIBERTY HOSE CO. No. 1.—At the annual meeting of officers of Liberty Hose Company No. 1 of Gold Hill, held at their hall night before last, the following named gentlemen were chosen as officers for the ensuing year: A. A. Putnam, Foreman; B. A. Holden, First Assistant; S. A. Winterbauer,

Legal Tenders.

SAN FRANCISCO, August 8.

Legal tenders, 72 1/2 asked.

FROM SAN FRANCISCO.

(SPECIAL DISPATCH TO THE ENTERPRISE.)

Body Identified—Heavy Attachment Suits—Another Death from Yellow Fever on the Beach—Insolvents—Delivered Himself up Arriving Legal Tenders—Exchange—Excursion—Appointment—Governor Stanley's Speech—Democratic Nominations—Etc.

SAN FRANCISCO, August 8.

J. B. Allen, Secretary of the San Francisco Benevolent Association, last evening identified the body of the man who died suddenly at the Portsmouth House as that of Henry Terry, formerly a soldier.

The following attachment suits have been commenced against the firm of Wightman & Harlow: In the Fourth District Court, John Parrott & Co. for \$10,000; Jos. A. Donahoe and Eugene Kelly \$12,000; in the Twelfth District Court, L. Strauss & Co. for \$8,000; Lazarus Freres for \$6,594; Rodgers, Weyer & Co., \$25,000; Unfelder, Collu & Co., \$3,028; D. A. Walter & Co., \$5,300; Daniel Meyer, \$2,871; J. Kohn, \$21,480; in the Fifteenth District Court, Hyneman & Co. for \$2,495; D. Packs & Co., \$4,001; B. D. Harding, \$10,000; J. Godchaux & Co., \$6,064; P. F. Loughran & Co., \$3,050; making a total of \$180,792.

A scaman on the Roanoke, who was attacked by yellow fever shortly after the arrival of the vessel here, died yesterday. This is the first case which has developed and terminated fatally here.

The following persons, resident in this city, have filed petitions in insolvency with the United States Register of Bankruptcy: Alonzo Farr, Geo. W. Ward, D. R. Steward, Alonzo Hoy, O. B. Adams.

Yesterday officer Lynes gave himself into custody on the charge of manslaughter in shooting the ex-criminal prisoner, Louis Asmus, and was

OBER...

New York.
Duck Creek.—The Creek still keeps on the even tenor of its way with a large troupe of melodious actors and actresses, introducing new features almost nightly. The place is devoted to fun and all is free and easy throughout. A fine bill will be presented this evening.
New Boilers.—The Yellow Jacket Company have just received and will at once set up two new boilers, each 16 feet in length 54 inches in diameter. Each boiler contains 50 three-inch tubes. The boilers were manufactured at the Pioneer Boiler Works.
Tax omnibus line, plying betwixt this city and Gold Butte is being well patronized this summer. Our people all seem to have made up their minds that it is much cheaper to pay two bits for a ride than to walk during the hot weather.
Nor So.—There was a report on the streets last evening that a miner in the Chollar-Potosi had been caved on and fatally injured. Upon tracing the matter up we found that a workman in the mine had sprained himself. No lives—no smashing of bones!
Overhauling.—The Kentucky Company are engaged in overhauling their hoisting works. They are putting in new reels, repairing their shaft, and putting everything in order for a long siege of heavy work.
Low Fare.—The old line of Dayton stages leaving that town in the morning charges but four bits to this city and intermediate points. Nobody can complain of this as extortionate.
Our markets are well supplied with apples, peaches, plums, pears, grapes and every other kind of fruit now in season—watermelons and muskmelons are also plenty.
For Sunday Accommodation.—After this date the stage office of Wells, Fargo & Co. will be open on Sundays from 2 to 4 o'clock P. M. for the accommodation of those wishing to secure seats in the stages to California.
The Corro Gordo ruins are still well spoken of. Partlow who left this city a few weeks since to look after interests in various lands in that section express themselves as being perfectly satisfied with their mines.
Freight teams, loaded with merchandise for our business houses, continue to throng our streets. Our merchants appear to be determined to take time by the forelock this season.
Telegraphic.—There are messages at the Telegraph office for the following persons: Mikal Kelly and C. Morales or Lottie Morales.
New Appointment.—Mr. A. Baker has been appointed route agent for the western division of the Overland Stage Company's line.
Business quantities of wood are now coming into the city from Washoe. Ten cords to one team is a load by no means unusual.
All our mills are now at work day and night, and we hear no complaint of a scarcity of flour.
Good Sport.—There is said to be very good shooting just now about Pearlie—the pine cone grouse and sage hens.

MINES AND MILLS OF THE COMSTOCK REGION WESTERN NEVADA

BY MARY B. ANSARI

CAMP NEVADA MONOGRAPH No. 8

Aurora Mill: Reported in 1862 to be owned by J. Mosheimer, John D. Winters, Joseph D. Winters, and G. Kustel and to be located 1/4 mile south of Dayton. At that time it had 38 stamps, 40 employees, and a 40-ton capacity; it was driven by 2 turbine wheels of 30 horsepower each. Earlier the Logan & Holmes Mill occupied the same site (Kelly, 1862, 218-19).

Mineral Rapids Mill: Small mill located on the Carson River below Dayton between the Dayton and Rock Point mills. In 1862 it was reported to have a 40 horsepower steam engine, 10 stamps, and 4 arastras; to work both gold and silver; and to reduce 20 tons in 24 hours. In 1865 it had 10 stamps and 14 pans, burned 3 cords of wood a day, and employed 13. It was named for the settlement of Mineral Rapids, which was laid out in 1860 on the river immediately below Chinatown (Dayton) but never thrived (Bancroft, 1862, map; GHN, 1865, June 5, 3:2; Kelly, 1862, 220).

Illinois Mill: Was located on the Carson River above the Rock Point Mill and about 1/4 mile below Dayton. In 1865 it was listed as a steam mill with 20 stamps and 5 pans, using 5 cords of wood a day, employing 14 men, and crushing 18 tons a day from the Yellow Jacket Mine in Gold Hill. In 1868 it was reported to be owned by the Bank of California, which was controlled by William Sharon. The 1869-70 *State Mineralogist's Report* listed it as a 20-stamp and 6-pan mill (GHN, 1865, June 5, 3:2; SMR, 1869-70, 15; TE, 1868, Jan. 21, 1:2).

Rock Point Mill: A Dayton State Park historical marker points out the ruins of this major mill on the west side of U.S. Highway 50 on the outskirts of Dayton. The mill was located below Dayton between the Mineral Rapids and Freeborn & Sheldon mills. In 1862 Kelly described it as "one of the most extensive establishments in the country," having a 90 x 100-foot main building, a 100 horsepower engine, 42 stamps, and a dam and race that cost approximately \$10,000. At that time 30 men were employed; the mill's reduction capacity was 50 tons a day; and it was processing ore from the Logan & Holmes Mine in Gold Hill. In 1865 it was reported to be owned by the Imperial Mining & Mill Co. In the 1866 *State Mineralogist's Report* it was listed as being steam and water-powered, burning 2 1/2 cords of wood per day, having 56 stamps and 50 pans, and crushing 56 tons a day. In the early 1870s it had 56 stamps and a 112-ton capacity but was not operating. According to the Dayton State Park historical marker at the site, the mill was destroyed by fire in 1882 and was rebuilt in 1883. Again in 1909 it was destroyed by fire and was rebuilt in 1912 by the Nevada Mining, Reduction & Power Co. with an aerial tramway carrying ore from the Haywood Mine near Silver City. A few years later the tramway was abandoned (Bancroft, 1862, map; GHN, 1865, June 5, 3:1; Kelly, 1862, 220-21; Smith, 1932, 13; SMR, 1866, 148; 1871-72, 100).

Freeborn & Sheldons Mill: Carson River mill located below Dayton between the Rock Point and Gautiers mills; it was originally known as Shaws Mill. Shaws Mill never became operative because the Rock Point Co. claimed and succeeded in holding the water with which the Shaw Co. expected to operate its mill. In 1862 Freeborn & Sheldons Mill was described as having a main building 75 feet square, a turbine wheel 5 feet in diameter and weighing 5,000 pounds, 24 stamps, and a 30-ton capacity; as employing 15, and as having cost approximately \$40,000 (Angel, 1881, 503; Bancroft, 1862, map; Kelly, 1862, 221).

Gautiers Mill: Early reduction facility shown on Bancroft's map as located on the east side of the Carson River below Dayton between the Freeborn & Sheldon and Succor mills. Kelly's 1862 directory reported it to have 10 stamps and a 15-ton capacity and to employ 8 (Bancroft, 1862, map; Kelly, 1862, 221).

Mills in Lyon County.

Believing that a list of the mills of this county, with a brief note of their capacity, would be interesting to the readers of the *Sentinel*, both at home and abroad, below we present such a list in as condensed a form as possible. Two or three of the mills were not running when we visited them, and we are therefore unable to furnish the particulars in connection therewith. We will refer to such at some other time. The business of these mills would make a very handsome footing up at the end of the year.

Devil's Gate Mill—Henry & Co., proprietors; Bates Henry, Superintendent; steam power, twelve stamps, ten pans; ten hands employed; four cords wood used per day; eight tons quartz crushed per day.

Pioneer Mill—Sheldon & Co., proprietors; J. A. Todman, Superintendent; steam power, fifteen stamps, twenty-seven pans; twelve hands employed; four and a half cords wood used per day; twenty-two tons quartz crushed per day, from the Alleghany mine.

Sherman & Co's Mill—Sherman Bros., proprietors; Sherman & Bovee, Superintendent; water power, five stamps, two pans; two hands employed; one cord wood used per week; four tons quartz crushed per day, from the Occidental mine.

Eagle Mill—R. T. Mullen, proprietor and Superintendent; water power, five stamps, two pans; two hands employed; one cord wood used per week; two tons quartz crushed per day, from the Overman mine.

Bacon Mill—Bacon M. & M. Co., proprietors; W. F. Johnson, Superintendent; steam power, twenty stamps, seventeen pans; fifteen hands employed; six cords wood used per day; thirty tons quartz crushed per day, from the Bacon mine.

Sparrow & Trench Mill—Trench & Co., proprietors; D. L. Hastings, Superintendent; steam power, twenty stamps, fifteen flat and two Wheeler & Rendal pans, seven more of which will be added in a short time; fifteen hands employed; six cords wood used per day; thirty tons quartz crushed per day, from the Spender & Trench mine.

Gold Canon Reduction Works—Collins & Co., proprietors; steam power, twenty stamps, sixteen pans.

Bartoli Mill—Eight stamps and eight pans.

Eastern Slope Mill—Ed. McLean, proprietor; C. W. Tuzer, lessee; L. Hudgin, Superintendent; steam power, sixteen stamps, (with a working capacity of twenty common sized) six pans; eleven men employed; five and a half cords wood used per day; twenty tons quartz crushed per day, from the Challenge mine.

Phoenix Mill, No. 1—J. C. Corey, lessee; A. K. Vanderveer, Superintendent; steam power, sixteen stamps, six pans; twelve men employed; four and a half cords woods used per day; twenty-two tons quartz crushed per day, from the Crown Point mine.

Phoenix M., No. 2—Under the supervision of the same parties as the Phoenix No. 1; twenty stamps, thirty-four pans; eighteen men employed; six and a half cords wood used per day; thirty tons quartz crushed per day, from the Crown Point mine.

Swansea M.—J. Tregloan, proprietor; Sam Johns, Superintendent; steam power, fourteen stamps, twenty-two pans; ten men employed; five cords wood used per day.

MILITARY garrisons have been established at Gallatin and Brookhaven, Miss., for the protection of the people, who are enjoined to be peaceable. All persons remaining in arms are declared to be out-laws.

GATHERS THEM IN.—The pensioners of the old Revolution have got down to four. Death has packed all the rest off on his body back, and set them down in Heaven.

JOSEPH BILLINGS says, "a reliable set of bowels is of more value than any quantity of brains."

Dr. J. F. Gibbon.—This celebrated physician has returned to San Francisco after an absence of a year, during which time he has visited the prominent hospitals in the United States, England, Ireland, Scotland and France, and having carefully studied the different modes of treatment in these establishments, comes back with full knowledge as to proper adoption of them in the effecting of cures here. He has resumed the practice of his profession at No. 617 Kearny street, where his old patients will find him, and those who are suffering from ills which his practice will allow him to cure. His card will be found in another column. my153m

The Remarkable Properties of BROWN'S BRONCHIAL TROCHES have been thoroughly tested since first introduced. The demand for them has steadily increased, and purely upon their own merits they have found favor with those who, from Pulmonary, Bronchial or Asthmatic complaints, require them. For Coughs and Colds they are efficacious. my12

Franklin M.—Treglone & Co., proprietors; Wm. Johns, Superintendent; water and steam power, ten stamps, nine tubs and pans; ten men employed; one cord wood used per day; twelve tons quartz crushed per day, from the Yellow Jacket mine.

Island M.—Belonging to estate of Levi Hite. H. L. Robey, Superintendent; water power, ten stamps, eleven tubs and pans; eleven men employed; three cords wood used per week; nineteen tons quartz crushed per day, from the Savage mine.

Stewart & Winters M.—Blanding, Superintendent; water power, ten stamps.

New Ophir M.—Ophir Mining Company, proprietors; steam power, twenty-four stamps, fifteen pans; fifteen men employed; four cords wood used per week; thirty-five tons quartz crushed per day, from the Yellow Jacket and Ophir mines.

New Dayton M.—Winters, Kustel & Co., proprietors; Besler, Superintendent; steam power, fifteen stamps, eight pans; fifteen men employed; five and a half cords of wood per day; twenty two tons of quartz crushed per day, from the Winters claim.

Old Dayton M.—Same proprietors as the last mentioned; water power, twenty stamps, six pans; eighteen men employed; one cord wood used per week; fifteen tons quartz crushed per day from Winters claim.

Lindauer & Hirschman M.—Lindauer, Hirschman & Sweetapple, proprietors; H. Sweetapple, Superintendent; water power, fifteen stamps, ten pans; nine men employed; one cord wood used per week; twenty tons quartz crushed per day, from the Gold Hill Consolidated mine.

Stead & Hunt M.—Stead & Hunt, proprietors; J. B. Hunt, Superintendent; steam power, fifteen stamps, five pans; eleven men employed; five cords wood used per day; twenty-two tons quartz crushed per day, from the Yellow Jacket.

Mineral Rapids M.—John Rule, proprietor; L. Dague, Superintendent; steam power, ten stamps, fourteen pans; thirteen men employed; three cords wood used per day.

Illinois M.—Brown, French & Co., proprietors; A. Kustel, Superintendent; steam power, twenty stamps, five pans; fourteen men employed; five cords wood used per day; eighteen tons quartz crushed per day, from the Yellow Jacket mine.

Rock Point M.—Imperial Mining and Mill Company, proprietors; A. F. McKay, Superintendent; water power, fifty-six stamps, thirty-six pans; twenty-four men employed; two and a half cords of wood used a day; sixty tons quartz crushed a day, from the Imperial mine.

Birdsall & Carpenter M.—Birdsall & Carpenter, proprietors; J. R. King, Superintendent; water power, twenty stamps, ten pans; ten men employed; one cord wood used per day; thirty tons quartz crushed per day.

Palmyra M.—Steam power; ten stamps, six pans; eight men employed; three and a half cords wood used a day; twelve tons quartz crushed a day.

From the above we compile the following interesting aggregates: Mills, 36; 20 steam, 13 water, and 3 water and steam; stamps, 514; pans and tubs, 378; men employed, 344; wood used per day, 75 cords; quartz crushed per day, 588 tons. Had we been able to get full information of the mills not running, each item of the total would have been considerably increased. In addition to the above, there will be several new mills put up this summer, Messrs. Birdsall & Carpenter having commenced theirs, which will have forty stamps when completed.—*Lyon Co. Sentinel.*

Notice to All who May be in Want of Castings and Machinery:

THE EMPLOYEES OF THE PIONEER Foundry, having leased the same, most respectfully announce to the public that they are now prepared to receive orders for Castings and Machinery, of all descriptions. All orders will be filled with promptness and dispatch.

A. J. TYRILL, Superintendent
Gold Hill, Oct. 20 1864. oc541

FIEBUSH & DURKEE,

Watch Makers
—AND—
MANUFACTURERS OF JEWELRY.

NEVADA
1869-1870

BELCHER.

Within the past two years twenty thousand tons of ore, yielding on an average \$17 per ton, have been obtained from this mine, nearly all from the upper levels. The deepest openings are eight hundred and fifty feet below the surface. At this depth the vein is nearly barren, showing only traces of gold and silver.

LUCERNE MINE.

This mine is situated near Devil's Gate, Silver City, southeast from Gold Hill. It is opened by a shaft and tunnels to the depth of three hundred feet. The vein is well defined and the walls have clay linings. The ore produces on an average \$10 per ton. The bullion assays \$3 50 per ounce in silver, and \$6 50 in gold. The ore is easily reduced, and the mine is worked without difficulty. The vein dips east about 45°. The country rock on the west is granite; on the east it is porphyry.

WALLER'S DEFEAT, ST. LOUIS, SUCCOR,

And other mines are on the same vein, and are worked very similarly to the Lucerne, and have the same characteristics and productiveness.

LYON COUNTY.

The natural resources described in my last report as peculiar to this county, have undergone but little change. Some developments have been made, but the results are not particularly marked. Public schools and churches have been prospered, and some improvements are perceptible.

The official returns fix the popular vote, at the last general election, at six hundred and thirteen, being two hundred and eighteen less than the vote cast two years ago.

The mines in Spring Valley District, three miles west from Dayton, have recently received some attention—several abandoned claims have been relocated, and a mill with ten stamps is being erected.

In Devil's Gate District, ore of a low grade is being extracted from the Hope, Buckeye and other mines. These mines were never developed to a great extent, and will probably produce large quantities of ore.

Owing to the fine water privileges afforded by the Carson River, and the facilities of access to the mines, principally in Storey County, there are a large number of mills in Lyon County.

The Atlanta has ten stamps and six pans.

The Birdsall has thirty stamps and forty pans.

The Bacon has twenty stamps and ten pans.

The Carson Valley has twenty stamps and ten pans.

The Daney has twenty stamps and ten pans.

Dayton Reduction has six pans.

Devil's Gate has twelve stamps and ten pans.

Excelsior has ten stamps and twenty pans.

Eureka has twenty stamps and eight pans.

Eagle Mill has two pans and four arastras.

Franklin has ten stamps and four pans.

Hope has ten stamps and six pans.

Island has ten stamps and four pans.

Illinois has twenty stamps and six pans.

Keystone has five stamps and six pans.

Kelsey has fifteen stamps and six pans.

Pioneer has fifteen stamps and ten pans.

Phoenix has fifteen stamps and ten pans.

Rock Point has fifty-six stamps and forty-three pans.

Swansea has twelve stamps and ten pans.

Winter's has two stamps, two pans and two arastras.

Weston has fifteen stamps and nine pans.

French has twenty stamps and eighteen pans.

The copper mines, twenty-five miles southeast from Dayton, are not worked.

SUTRO TUNNEL.

This tunnel was commenced in 1869, and has been prosecuted with commendable energy. It is run westward from the face of the foot-hills north of Dayton, so as to intersect the Comstock ledge at right angles at the depth of two thousand one hundred and seventy-two feet. It has been driven sixteen hundred and fifty feet. A stream, affording about twenty-five inches of water, flows from it. No valuable veins of ore have as yet been found.

It is proper to state that a large number of the mills are not running, the supply of ore having ceased.

CHURCHILL COUNTY.

There has been but little progress in the developments of the natural resources of this county within the past two years. The completion of the Central Pacific Railroad withdrew the travel and transportation almost entirely from the Overland Mail Road; consequently business ceased, and many of the stations along that road have been abandoned. The agricultural lands along the Carson River and about the Carson Lake and Sink have produced well.

The popular vote of the county at the late general election was eighty-seven; sixty-four votes less than were cast in November, 1868.

The soda mine, near Ragtown, has been opened to the depth of twelve or fifteen feet. It is situated in a small basin on the southwestern border of the desert surrounding the sink of the Carson and Humboldt Rivers. There is a pond or small lake near by, perhaps three quarters of a mile in length and from a quarter to half a mile in width, and said to be of great depth.

The water collects in the soda basin during the rainy season, and afterward gradually evaporates, leaving the soda beautifully crystalized over a space of from one to two acres in extent. From the developments recently made, it seems that this deposit has an unknown depth, and consists

8/27/1866 (DAYTON) ILLINOIS ^{MILK} SHERIFF SALE 4973
TO WILLIAM SHARON

And Indenture made this Thirtieth day of August
not in the year One thousand eight hundred and
sixty six Between George W. Sharo Sheriff of Lyon
County State of Nevada of the first part and
William Sharon of Virginia in the County of Storey
State of Nevada of the second part Witnesseth
Whereupon and by a certain Judgement or de-
cree made and entered by the District Court of
the third judicial District of the State of Nevada
in and for the County of Lyon on the 23rd day of
January A.D. 1866 in a certain action then pending
in said Court wherein William Sharon was plain-
tiff and William M. Brown, Charles J. Reader, M. H.
French, J. F. French, Henry Davis and J. H. Mead and
John M. Con, Comprising firm of Mead & M. Con
and E. P. Kane and Albert G. Watson Comprising
firm of Kane & Watson were defendants. It
was among other things ordered and adjudged and
decree that certain singular the mortgaged
premises described in the Complaint in said
action and specially described in said Judg-
ment or decree be sold at public auction by
the Sheriff of Lyon County to the highest bidder
by law and according to the course and practice
of said Court at such sale be made after due
public notice having been given at a time and place
in and among the parties to any of the parties to said
action might become the purchaser at such sale and
that said Sheriff execute the usual certificates and
deeds to the purchaser or purchasers as required by
law and when so he said Sheriff at the hour of
Twelve O'clock noon on the twenty fourth day of
January A.D. 1866 after due public notice had been given
as required by the law of this State and the Court and

practice of said Court duly sell at public auc-
 tion in the Town of Dayton, County of Lyon, agree-
 able to the said judgment or decree and the provisions
 of law, the premises in the said judgment or decree
 mentioned, at which sale the said premises in said
 judgment or decree and hereinafter described
 were fairly struck off to William Thorne, the first
 bidder of the second part for the sum of thirteen thousand
 and nine hundred and fifty Dollars (\$13,950) he
 being the highest bidder and that being the highest
 sum bid for the same. And whereas the said por-
 ty of the second part thereupon paid to the said sheriff
 off the said sum of money so bid as by him. And
 whereas the said sheriff thereupon made and issued
 the usual certificate or duplicate of the said sale
 in due form of law and delivered one thereof to the
 said purchaser and caused the other to be filed in the
 County Recorder's Office of Lyon County, and
 whereas more than six months have elapsed since
 the date of said sale and no redemption has been
 made of the premises so sold as aforesaid by or on
 behalf of the said judgment debtor or by or on be-
 half of any other person. Now this said Court
 witnesses that the said party of the first part the said Sher-
 off in order to carry into effect the sale so made by him
 as aforesaid in pursuance of said judgment or de-
 cree and in conformity to the statute in such case
 made and provided, and also in consideration of
 the premium and of the said sum of thirteen thousand
 and nine hundred and fifty Dollars so bid and paid
 by the said purchaser the said party of the sec-
 ond part he except, relinquish, acknowledge
 that premises conveyed both as a mortgage and by the
 parties both grant and grantee shall in all things be

land part of the second part and to his heirs and the assigns forever. All that certain tract or piece or parcel of land situate lying and being in the Town of Dayton County of Iowa State of Nevada surveyed for Mr. William Charles Resler, J. P. Munch and West Munch by John Day County Surveyor of Iowa County on the 23rd day of November A.D. 1864 and described as follows.

Beginning at a stake marked "Brown Bench & Co. No. 1" on the West bank of the Old Channel of Carson River and running thence 1. North thirty four degrees and thirty minutes West ($N. 34^{\circ} 30' W.$) five hundred and fifty (550) feet crossing water in three hundred (300) feet to a stake marked

"Brown Bench & Co. No. 2" thence 2. South thirty seven degrees West ($S. 37^{\circ} W.$) one thousand and fifty five (1055) feet crossing water to a stake marked

"Brown Bench & Co. No. 3" on east side and west Rock Point Bend thence 3. South eight degrees East ($S. 8^{\circ} E.$) four hundred and forty five (445) feet up and over Rock Point Bend to a stake marked

"Brown Bench & Co. No. 4" thence 4. North thirty seven degrees East ($N. 37^{\circ} E.$) three hundred and twenty five (325) feet crossing water in about running

in and on timber land and two (225) feet to place of beginning containing two and thirty hundredths ($2\frac{30}{100}$) of an acre. Bounded November 24th A.D. 1864 as Book of Records Page 169 of Iowa County Records. Also the

quartz mill known and commonly known as the "Dayton Mill" situated at Rock Point Bend. Also the quartz mill known as the "Olin's Quartz Mill" situated

with all and singular tenements heretofore and now used and occupied by the said William Charles Resler, J. P. Munch and West Munch and their heirs and assigns forever and of full force and effect from

res. belonging or in any wise appertaining and the
 reversion and accensions. Unamended and remains
 unto issues and profits thereof. And also all the co-
 tate & glt title interest. Property. Possession claim and
 demand whatsoever as well in law as in equity of
 the said party of the first part and of the said de-
 fendants in said action herebefore claimed or any
 of them again and to the above described premises
 and every part and parcel thereof. To have and
 to hold all and singular the premises above men-
 tioned and described and hereby conveyed or
 intended to be together with the appurtenan-
 ces unto the said party of the second part his
 heirs and assigns to him and thine own proper
 use benefit and behoof forever. In witness
 Whereof the said party of the first part to these presents
 hath hereunto set his hand and seal the day and
 year first above written.

Witness my hand and seal this 1st day of January 1866
 of A. W. Ruffell } Sheriff of Lyon Co. Nev.
 State of Nevada }
 County of Lyon } ss.

On this Eighth day of September
 1866 before me A. W. Ruffell Recording and for
 said County personally appeared George W.
 Shaw Sheriff of Lyon County Nevada. Known to
 me to be the person described and who acknowledged to
 me that he executed the above party and voluntarily
 only as such Sheriff and for the use and purpose
 as therein contained. Witness my hand and
 Official Seal the date last above written.

(Seal)

A. W. Ruffell

Recorder of Lyon Co. Nev.

Therein duly commissioned and sworn personally appeared J. W. Allen as before named as subscribed to the annexed Instrument as a party thereto who is personally known to me to be the individual described in and who executed the annexed Instrument and who said J. W. Allen duly acknowledged to me that he executed the same freely and voluntarily and for the uses and purposes therein mentioned.

In Witness Whereof I have hereunto set my hand and affixed my official seal at my office in said County this day and year last above written.
